Honestly pretty boring after the first couple levels. If you can get it for a dollar go for it, but don't expect a ton. About half way through the game and having a great time! Love the art direction and the puzzles are a lot of fun, I'll definitely go back to solve them in different ways. Ran into a few minor bugs, but nothing that stopped me from playing. Defintely worth it for the music alone.. The recent update including the strategy mode cuts down on the "clickiness" by a lot; which leaves this game as a 4\/5 for somehow being fun and educational. The update also had the unseen benefeit of cutting down a graphical issues, since it can go as a turn-based, not real-time.. MARIO party but replace the mini games with dice combat. The game is annoying and cheap. There is no direction, no destination and no good plot which I'd like to complete. There's actually no voice-acting (the narrator doesn't count), all the dialogues were boring so far and made me click through them. AND OF COURSE THE BOY SEEMS TO BE GAY+ he's young so he MUST keep saying about t*ts, t*ts and d*cks. So pretentious. I'd really like to play more, 'cause there is a chance that the game becomes more interesting, but no actual goal, boring dialogues and the lack of voice-acting in addition to the same music that keeps playing makes it not beautiful, but annoying. There are lots of better point & click games. Don't buy this one (or you can if you have trouble with insomnia).

@Petite Fleur Productions I wrote "seems" and it was supposed to be "gay + xyz", smarty. It still doesn't change anything, the game's cheap.. The game is essentially unplayable on WASD and Play Station controllers don't work. For now this is a thumbs down for me until it has proper support.. No split screen mode = fail. tested on Oculus Rift When the Wardens Fall is a really great action game with settings for every player from move options teleport, confort ,locomotion and more to blood options for every players can enjoy the game in the best way

the system pf weapon collision is really cool, if we strike just in the moment where the enemy attack the strike of the eneny is blocked by our sword with a wonderfull sparks effects, after few strikes the enemy lost their armor part an enemy with the headset for exemple is more resistant than an enemy without and after few strike with your weapon he can lost his head set and he become more easier to fight

the models of enemies are various and great

there is a variety of weapons we can unlock , the enemies are random so if you lost and you start again the enemies place and number can change so it increase the replayability

you can too create potions with various effects in a lab hidden the dungeon

so to resume When Wardens Fall is a great action dungeon games with a lot of great ideas and i enjoy this game a lot . not a bad game but not worth \u00a320 very basic game and only german leagues. Used to spend a ton of hours into this game and found it to be incredible, however when it was moved away from the orginal dev team, the game went into an absolutely \u2665\u2600U

Are cool real life cars. I decided to complete my collection of Homeworld: Deserts of Kharak by buying off the musical score as well as this nifty expedition guide. Now, I do know for a fact that other developers would have provided this as part of the whole package, but since we are tapped into the microtransactions system that developers nowadays employ for profit, I do not mind paying for a small sum of money for such novelty items.

Some of the players might fret and disagree with me, but at the end of the day, it is all a matter of choice and if you a) like to have a complete package, and 2) can afford the meager amount, I say go and get them both.. Amazing DLC. Zero-gravity zones are really good and give nice addition to gameplay.. Wild West Waifus. What's not to love about this? $773 \lor 5$.

P.S: I'll do a proper review once i'm done with this, but so far the game looks great, music fits well (nothing out of extraordinary, but it does its job), the characters don't seem as bland as usual, and the story\/world feels nicely built, natural. Also, I've no issues with the translation so far, as it's blending with the setting quite well. No memes spotted either, except for the main char being named after JoJo...

As expected, the comic boobs style makes it more immersive/engaging than usual.. I laughed at the humour in this game - it is very well done. There were a few references to what I think were American reality tv celebrities (I'm not from the US so couldn't place the names) but that didn't subtract from what is overall a polished and funny game. I've played a number of adventure games over the years and I felt that the puzzles were quite logical and made a lot more sense than some of the puzzles I've played in other games.

Quite an enjoyable adventure game. I've still got a little bit to go and I think I'll actually finish this game which is unusual for me.

. It's Lumines.

You know the drill, hours of hypnotic gameplay.

Too bad no Genki rocket's Heavenly star.. Great asthetic and beautiful visuals, but it's another one of those gotta-hit-the-exactpixel kind of games. I really wanted to like this, but when I got about halfway through I realized that I was forcing myself to keep playing, so I quit and went outside.. Hmmm..... Not bad, but it gets a little too tricky for me to enjoy.. \uff44\uff41\uff52\uff4b\u3000\uff41\uff45\uff54\uff45\uff54\uff45\uff54\uff45\uff54\uff45\uff54\uff45\uff54
